

# The Pivot Rock Fund

**Building up the fabric of our  
community**

The Pivot Rock Fund is the grantmaking enterprise of a particular and idiosyncratic individual person and his immediate household. We typically expect to make grants in the range of \$3,000 to \$5,000.

We like to spend out money in ways which are beneficial to everyone in the community. We also tend to prefer projects which benefit people in our own neighborhood in northeastern Wisconsin or which have a strong tie to the grantor's personal or family history.

Organizations with projects that build up the fabric of our community can use the application form on our web site's home page.

A list of recent grants is also available on our website.
